

SOLAR POOL HEATING

MULTILAYERED ENERGY FLOW 10 TECHNOLOGY

- ✓ DOUBLE YOUR SWIMMING SEASON
- ✓ FREE HEAT FROM THE SUN

MULTI AWARD WINNERS

Your pool heating Partner

ARE YOU GETTING THE BENEFIT OF NATURE'S FREE SOLAR RESOURCE?

ENERGY FLOW 10 DELIVERS A SWIM WHEN YOU WANT LIFESTYLE

Pool water temperatures naturally vary from north to south, from season to season, and even from early morning to night. Sunlover Heating solar systems deliver the 'swim when you want' lifestyle - that adds value to your pool.

HOW IT WORKS

PROVEN TECHNOLOGY

Heating water with solar absorber is a proven thermal engineering concept that has been used for centuries.

Solar systems are economical and provide long life because they are simple – cold water is pumped from your pool, through solar absorber on your hot roof, collects heat then makes the return trip to your pool.

The water temperature is managed by a electronic controller.

Today, Sunlover Heating applies state of the art systems design and polymer engineering to its solar absorber products to deliver the lowest cost and most reliable heating you can get for your pool.

CONTROLLING

YOUR FREE SOLAR POOL HEATING

Sunlover Heating solar systems are easy to operate. With a range of electronic controllers featuring easy to follow digital readouts, you can set your desired water temperature and operating times and forget it.

The sophisticated Sunlover Heating digital controllers are reliable, Australian made and serviced, and available with optional wireless remote controls.

MULTI LAYERED ENERGY FLOW 10

RED INSIDE

- ✓ Specifically formulated for maximum chemical resistance
- ✓ Increased resistance to collapse from vacuum crush
- ✓ Optimum sealing around manifolds and barbs, so no leaks
- ✓ Round tube design for maximum resistance to crushing & splitting

**SUPERIOR EFFICIENCY
LONGER LIFE**

BLACK MATT OUTSIDE

- ✓ The best UV weathering resistance package available, resulting in longer life
- ✓ Material contains a 'high matting agent' which greatly improves solar absorption, providing superior performance & efficiency
- ✓ Is also formulated to have increased toughness to resist mechanical damage and puncturing

10 TUBE EFFICIENCY

- ✓ 10 Tubes
- ✓ Maximising wet area per m²
- ✓ Faster heat up times
- ✓ Extend swimming season even further

FEATURES

SUNLOVER MANIFOLD

The new indestructible Sunlover manifold provides no gluing joints for easy installation and have winged sides that lock the manifold in place that stop sideward movement.

- No Gluing Joints
- Indestructible Design
- Winged Shape locks in place

The wings also protect the rubber grommet from UV deterioration.

FLAT MATT RETURN

Patented Sunlover Flat Matt Returns eliminate return "loops" on your roof. Moulded in durable BASF LuranS polymer, this return product improves appearance.

PVC PREMIUM ABSORBER

PVC Nitrile Premium Absorber manufactured from chemical resistant polymer compounds certified to meet AS2369.2-1993 – Materials for solar collectors for swimming pool heating, Part 2: Flexible or plasticised polyvinylchloride.

INCREASING YOUR SOLAR SYSTEMS EFFICIENCY AND PERFORMANCE

**WARRANTY
15 YEARS
ON SOLAR COLLECTOR
-
5 YEARS
ON MANIFOLDS**

CONTROLLER RANGE

Sunlover Heating has a large range of controllers to work in all situations. Functions include:

- ⊕ Temperature adjustment
- ⊕ Winter & tropical mode
- ⊕ Fitted with current detection on the auxiliary outlet power socket such that the solar pump can only operate if the filter pump is running
- ⊕ Will run in conjunction with the existing chlorinator
- ⊕ Filter Pump multi function Timer
- ⊕ Auto Over-Ride that switches the Filter Pump on if the solar gain is present out of normal filter times
- ⊕ Manual Over-Ride that locks out the Solar Pump when back washing or cleaning lint pot
- ⊕ Extra Power Plug that eliminates the expense of having an additional power point fitted

Rigid Solar

Heat Pumps

Gas Heaters

Pool Blankets

Pool Rollers

Pool Pumps

We supply pumps by industry leading manufacturers such as Astral.
